

To whom it may Concern I am Respectfully Urge you to Reject NAB petition 04-160 , I find that my XM radio is a very important part of my day , it not only provides me with entertainment , but also it allows me to hear News when I want to listen , also as I travel across this great country of ours I can tune in and keep that station , and I do not have to be searching for a station to find news and also can hear weather and advisory and traffic in most major U S city , Please vote against Thank You g a bosley
